**Subject:** UBER

It appears that the decision to protect the citizens of our state from Uber is based on a desire to protect the existing service providers more than the citizenship. If the Uber service is acceptable in the largest states and municipalities across the country, why is that not the case in our state. Are our principles and laws so out of synch with the rest of the country that contemporary products and services that are available in our neighboring states are not available to us?

**Subject:** Uber

PLEASE keep in mind yellow cab will NOT provide service in our our area of North Charleston early in the morning. We are good people, and we need early service to go to the airport so that we can catch early flights to the rest of the world. Thank you Uber for letting us get to where we need to go- current cabs will not do that!!!!!!!!!!

it is not dangerous the way Uber does it. Maybe it is time for cabs to change what they do not the other way around.

Scott Moore

**Subject:** Uber in SC

Please reconsider your recent decision to ban Uber from South Carolina.

Just last weekend my wife and I used Uber after a dinner downtown. Rather than driving impaired or paying way to much for a cab, and waiting forever for it, we caught an Uber ride. The car was clean and the driver professional. The cost was half of a taxi and we waited less than 5 min for pick up.

Your decision is wrong for the people of South Carolina.

Sincerely,

Dean Carico

**Subject:**

Let the people decide the market. These drivers probably have more insurance than most half of SC's licensed drivers. Lobbyist and lawyers are happy to fill their pockets at the expense our freedom of choice.
